

**GOVERNMENT OF TELANGANA**  
**INFORMATION TECHNOLOGY, ELECTRONICS AND COMMUNICATIONS DEPARTMENT**

**Cir. Memo No.ITEC-14/ETRM/5/2021-OSD**

**Date: 09.06.2021**

Sub:- ITE&C Dept.– ETRM-Offerings under Telangana State Blockchain Framework – Reg.  
Ref: Telangana State Blockchain Framework

\*\*\*

The attention of all Startups working in the Blockchain and allied sectors in the State is informed of the reference cited.

2. Government of Telangana has played a pivotal role in encouraging Startups working in Emerging Technology domains by creating an enabling environment backed with a string of decisive policies and frameworks. The Government has created a vertical or wing called "Emerging Technologies Wing" for emerging technologies with the objective to develop the ecosystem required for the industry and to make the Government Departments leverage or adopt emerging technologies. Government of Telangana in its bid to support innovation through disruption has come up with favourable policies and frameworks for encouraging startups and entrepreneurs in the fields of Blockchain, AI, Drones, Electric Vehicle, Cyber Security, Cloud Adoption among others.

3. The State of Telangana, with its vision to be a leader in emerging technologies, has formulated the Blockchain Policy Framework and has taken up several initiatives to develop a conducive ecosystem for the industry in the State. Realizing the potential of Blockchain technology, the government in consultation with the industry, academia and the communities is working towards making Hyderabad and the State an active hub in this technology.

4. The Blockchain framework is based around four main pillars:

- Developing Talent Pool
- Promoting Research & Innovation
- Supporting Infrastructure
- Enabling Collaboration and Building Community

5. The Government of Telangana has also conceptualized India's first Blockchain District with an aim to create the world's best blockchain technology ecosystem. The Telangana State Blockchain Framework has also mentioned about creation of shared infrastructure facilities which can be utilized by startups, industry, communities, and academia either at nominal cost or free of cost.

6. The Telangana State Blockchain Framework has also earmarked Incentives for the Startups. Government has intended in the policy to utilise its industry relationships to conduct seminars, workshops and lectures by renowned industry leaders and technologists to mentor Startups.

7. Hence, all the Startups working in the Blockchain and allied sectors in the State are requested to access the Telangana State Blockchain Framework through the below mentioned link and explore the various offerings available under its ambit.
