The attention of all Registered Companies including Startups in the State is informed of the reference cited.

The Government of Telangana has played a decisive role in engaging with companies and Startups. The State with its Open Data Policy launched in the year 2016 has revolutionized the open data platform and opened up government data to a host of potential applications. Telangana's Open Data policy is aimed at transparency and also to enable Startups and other companies to address public issues by finding solutions using the datasets made available.

The Open Data Policy of Government of Telangana is supported by the Open Data Platform which acts as the central repository of all the datasets of the Government of Telangana that should be in the public domain.

The Department of Agriculture has been created mainly to provide Agricultural services to farmers and to transfer the latest technical knowledge to the farming community. The Department is also looking at sharing the datasets available with them with various companies including Startups for encouraging innovation and create additional opportunities.

In order to contribute in transparency of Government data and in facilitating Companies and Startups exploit gaps across markets and identify business opportunities, create new products and services, and develop new business models, Agriculture and Co-operation Department has shared the following datasets in Open Data Platform of Telangana:-
